WARM AIR FURNACE - MODEL 1200G

Hotblast® Warm Air Furnace

Model 1200G

United States Stove's Hotblast® Warm Air Furnace works alone or in conjunction with your present furnace to heat your entire home - while drastically reducing home heating costs. The Hotblast 1200G is the economical alternative for whole-house comfort.

FEATURES / BENEFITS

- Output of 26,000 to 110,000 BTU's per hour, large enough to heat most small- to medium-sized homes up to 2,200 square feet.
- Heavy-gauge, two-piece firebox made from cold rolled steel for many years of service and high performance.
- Firebrick lined for long life and combustion efficiency.
- Heavy-duty, cast iron grates, feed, and ash doors.
- Easy-to-operate, non-electric, cast iron, "spin draft" primary air dampers.
- Front-mounted smoke curtain.
- Removable ash pan.
- Raised and tapered heat outlets allow for secure connection of 8" heat outlets.
- Safety tested and certified to UL Standard 391 by Warnock Hersey International.
