**BOXWOOD RANCH STOVE - MODEL 127**

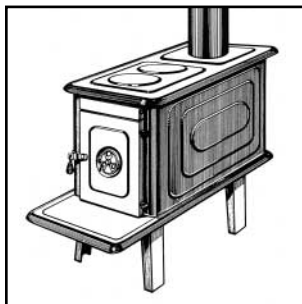

# Boxwood® Ranch Stove

## Model 127

*The improved BOXWOOD® Utility Heater has a nostalgic charm that is ideal for heating small places like a garage, cabin, or ski lodge. Its one-piece top ensures strength and durability even under extreme heat and rough handling. The high-temperature, black-matte finish, the heavy construction, and the high tolerance level make the BOXWOOD® Utility Heater the ultimate in rugged, small space heaters. Below are some of the reasons the BOXWOOD® is the answer to your energy needs.*

### FEATURES

- No electricity required for power loss protection.
- Fully assembled except for legs which attach easily for care-free installation.
- Round, 6" flue opening for firm stove-pipe fitting.
- Adjustable draft wheel in the door for heat control.
- Heavy-duty 11- and 13-gauge steel for increased durability.
- High-temperature, matte, black finish resists fingerprints without discoloring in high temperatures.
- Specially designed cast-iron damper allows for safer operation and more complete control of the rate of combustion.

### SPECIFICATIONS
