WONDERWOOD® - MODELS 3041 & 3051

Wonderwood® Stove

Models 3041 & 3051

The Model 3041 and Model 3051 WONDERWOOD® provide the best features of our previous models but with a difference - greater efficiency, cleaner burning, and non-catalytic, trouble-free performance.

FEATURES / BENEFITS

- Heavy-duty firebrick lining for exceptional durability and better burn characteristics.
- Non-electric, bi-metallic thermostat provides automatic comfort control without electricity.
- Extra-heavy, cast-iron grates are more durable, for longer life and more complete combustion.
- Six-inch, cast-iron vent provides a variety of installation possibilities and never needs replacement.
- Large-capacity firebox heats up to 8 to 10 hours on one fuel loading.
- Heavy-gauge, 14-gauge, aluminized steel construction assures longer firebox life and promotes rapid heat transfer.
- Lift-top with positive safety latch provides safe access to auxiliary cooking surface (Model 3041 only).
- Heavy-duty, cast-iron feed and ash doors with ceramic door gaskets prevent warpage, enhance air-tight operation, and promote greater efficiency with longer burn times.
- Superior heating performance up to 46,000 BTU's per hour adequately heats large areas up to 1,100 square feet.
- Optional, add-on, automatic blower with manual override increases air circulation, enhances counterflow convection currents, and extends heat to additional rooms.
- Safety tested and certified to UL Standard 1482, ULC 567, and Method 28A by Warnock Hersey Int'l.

SPECIFICATIONS

3041

3051

• Dimensions	33 ¹ / ₂ " H x 32 ¹ / ₄ " W x 19 ¹ / ₄ " L	33 ¹ / ₂ " H x 32 ¹ / ₄ " W x 19 ¹ / ₄ " L
