

GLV1 HEARTH GLOVES

If you heat your home with wood, hearth gloves are an essential accessory.

Your new gloves provide you with the necessary protection needed while working with wood burning or multifuel stoves. Whether they are used for handling hot tools, opening hot door handles, or loading logs into your heater or fireplace, these gloves are the perfect tool. Made from a durable heat resistant material, the GLV1 hearth gloves protect your hands from possible burns while preventing splinters and other discomforts associated with gathering and handling firewood. Keeping your hands safe and clean while tending your hearth or woodstove has never been so easy!
