GWCK Cover Installation

**Caution:**
The appliance is very heavy. The assistance from a second person is strongly suggested. Please use proper lifting technique when positioning the appliance for assembly and installation.

**STEP 1**
Remove the 1/4-20 screw from top right side of heat shield as shown.

**STEP 2**
Loosely attach the mounting bracket to the heat shield.

**STEP 3**
Position the cover over the mounting bracket and then pull the left side of the cover over the heat shield. The cover will fit snugly over heat shield.

**STEP 4**
Align the hole of the mounting bracket with the hole in the right side of the cover. Use a 1/4-20 screw to loosely secure the cover to the bracket.

**STEP 5**
Make sure the cover is completely vertical with no tilting before moving on to the next step.

STEP 6
Use a 1/8” drill bit to match drill the top right hole. Insert one #10 screw as shown. Repeating this step in the order provide below.

FIRST SCREW
SECOND SCREW
THIRD SCREW
FOURTH SCREW
LAST SCREW

STEP 7
Fully tighten both of the screws in the mounting bracket.

STEP 8
Make sure cover is flush on both sides as shown and use two (2) #10 screws to secure back rear of the cover to the pedestal.

In order to maintain warranty, components must be replaced using original manufacturers parts purchased through your dealer or directly from the appliance manufacturer. Use of third party components will void the warranty.
